HUNTR - Child Sexual Abuse and Exploitation Prevention Policy

Effective Date: 27 October 2026

Platform Operator: RFYNE (RFYNE PTY LTD, ACN: 695 701 501)

1. Purpose and Commitment

1.1 HUNTR is an adult digital content platform owned and operated by RFYNE PTY LTD ("HUNTR", "we", "us" or "our").

1.2 HUNTR maintains a zero-tolerance policy towards child sexual abuse, child sexual exploitation and any material depicting, promoting or facilitating such conduct.

1.3 This Policy establishes HUNTR's approach to preventing, identifying, restricting, removing and reporting child sexual abuse and exploitation material in connection with the Platform.

1.4 HUNTR is committed to complying with the Online Safety Act 2021 (Cth), applicable Online Safety Codes and Standards, and all other relevant Australian laws concerning child protection and online safety.

2. Prohibited Material and Activities

2.1 HUNTR strictly prohibits child sexual abuse material (CSAM) and child sexual exploitation material (CSEM), as defined under applicable Australian law.

2.2 Prohibited material and activities include:

a) images, videos or other material depicting the sexual abuse or exploitation of a person under 18 years of age;

b) sexualised or exploitative representations of children, including material involving individuals who appear to be minors;

c) digitally generated, manipulated or artificially created material involving the sexual exploitation of children;

d) material promoting, encouraging, facilitating or providing instructions relating to child sexual abuse or exploitation;

e) grooming, solicitation, coercion, trafficking or other conduct intended to facilitate the sexual exploitation of children; and

f) attempting to upload, distribute, obtain, promote or otherwise facilitate access to prohibited material through the Platform.

2.3 These prohibitions apply regardless of whether material is presented as fictional, digitally altered or purportedly consensual, where it falls within the scope of applicable prohibitions.

3. Creator Verification and Eligibility

3.1 HUNTR features content exclusively from adult Creators represented or managed by RFYNE under applicable contractual arrangements.

3.2 Before approving content for publication, RFYNE requires appropriate verification establishing that featured performers are at least 18 years of age. This is done by the collection of an ID document (drivers licence or passport), in combination with a video call to prove authenticity.

3.3 RFYNE must have appropriate authorisation for the publication and commercial distribution of featured content.

3.4 Content must not be approved for publication where there are unresolved concerns regarding the age, identity or lawful participation of any person depicted.

4. Content Review and Publication Controls

4.1 HUNTR operates a curated content platform. Content is administered and published by authorised RFYNE personnel rather than through unrestricted public uploads.

4.2 HUNTR will maintain procedures designed to prevent child sexual abuse and exploitation material from being published or made accessible through the Platform.

4.3 Content identified as potentially unlawful or exploitative must be escalated for appropriate assessment and must not be published while relevant concerns remain unresolved.

4.4 RFYNE will assess the need for appropriate technical safeguards and content-detection measures in accordance with the requirements applicable to the Platform.

4.5 HUNTR will review its content safety procedures periodically and when material regulatory or operational changes occur.

5. Reporting Suspected Child Sexual Exploitation

5.1 HUNTR encourages users, Creators and members of the public to report suspected child sexual abuse or exploitation material associated with the Platform.

5.2 Reports may be submitted through HUNTR's designated safety reporting channel:
Safety Contact: [Insert dedicated email or reporting link]

5.3 Reports should identify the relevant content, account or webpage where reasonably possible.

5.4 Individuals must not download, reproduce or redistribute suspected child sexual abuse material for the purpose of making a report.

5.5 HUNTR will treat reports involving suspected child sexual abuse or exploitation as urgent safety matters.

5.6 Reports may also be submitted directly to the Australian eSafety Commissioner or appropriate law enforcement authorities.

6. Investigation and Content Removal

6.1 Where HUNTR becomes aware of suspected child sexual abuse or exploitation material, it will promptly assess the matter and take appropriate protective action.

6.2 Such action may include:

a) immediately restricting public access to suspected prohibited material;
b) preventing further publication or distribution;
c) suspending associated accounts or access privileges;
d) referring the matter to appropriate authorities; and
e) implementing additional safeguards where necessary to prevent recurrence.

6.3 HUNTR will cooperate with lawful investigations and comply with applicable regulatory directions and reporting obligations.

6.4 Any retention or preservation of relevant information for investigative purposes will be undertaken only where legally authorised and in accordance with appropriate evidence-handling and security procedures.

7. Cooperation With Authorities

7.1 HUNTR recognises the importance of cooperation with Australian child protection, law enforcement and online safety authorities.

7.2 Where required by law, or otherwise legally appropriate, RFYNE may report suspected child sexual exploitation to relevant authorities, including the Australian Federal Police and the eSafety Commissioner.

7.3 HUNTR will respond to lawful requests for information, preservation notices and regulatory directions in accordance with applicable legal obligations.

7.4 Information concerning reports or investigations will be handled confidentially, subject to applicable disclosure and reporting requirements.

8. Enforcement

8.1 Any person found to have used or attempted to use HUNTR to facilitate child sexual abuse or exploitation may be subject to immediate restriction or termination of access.

8.2 RFYNE may take further lawful action, including referring suspected criminal conduct to relevant authorities.

8.3 HUNTR will not knowingly facilitate the publication, sale, distribution or continued accessibility of prohibited material.

9. Review and Compliance

9.1 RFYNE will review this Policy periodically to reflect applicable legislation, regulatory guidance and changes to HUNTR's operations.

9.2 Where necessary, HUNTR will update its operational procedures to meet relevant Australian online safety requirements.

9.3 This Policy operates alongside HUNTR's Terms of Service, Privacy Policy and applicable internal content safety procedures.

10. Child Safety Risk Assessment

10.1 RFYNE will assess reasonably foreseeable risks of child sexual abuse and exploitation material being distributed, promoted or otherwise made accessible through HUNTR.

10.2 Risk assessments will consider the Platform's content management arrangements, technical features, third-party infrastructure and methods of publication.

10.3 RFYNE will review relevant risks when material changes are made to the Platform and implement safeguards appropriate to its operations and applicable regulatory requirements.

11. Proactive Prevention and Detection

11.1 HUNTR will maintain content-screening procedures designed to prevent child sexual abuse and exploitation material from being published or distributed through the Platform.

11.2 RFYNE will implement appropriate technological and administrative detection measures as required by the applicable Online Safety Codes and Standards.

11.3 Content that raises unresolved concerns regarding child sexual abuse or exploitation must not be published or made accessible pending appropriate assessment.

11.4 RFYNE will periodically evaluate the effectiveness of its detection and prevention procedures.

12. Accessible Reporting and Complaints

12.1 HUNTR will provide a clearly identifiable mechanism through which customers, Creators and members of the public may report suspected child sexual abuse or exploitation material.

12.2 Individuals will not be required to purchase content or register an account solely to submit a child safety report.

12.3 Reports will be assessed promptly, with matters involving suspected child sexual abuse or exploitation treated as urgent.

12.4 Individuals submitting reports will not be required to download, reproduce or upload suspected unlawful material.

13. Incident Response and Regulatory Cooperation

13.1 RFYNE will maintain procedures for the assessment, escalation and management of suspected child sexual abuse or exploitation incidents.

13.2 Where reasonably necessary, HUNTR will promptly restrict access to suspected unlawful material while assessing appropriate further action.

13.3 RFYNE will comply with applicable reporting obligations, lawful information requests and regulatory notices.

13.4 Relevant information will be preserved, disclosed or securely disposed of only in accordance with applicable legal requirements and appropriate evidence-handling procedures.

14. Internal Accountability and Compliance

14.1 RFYNE will assign responsibility for administering HUNTR's child safety procedures and responding to relevant reports.

14.2 Personnel involved in content publication or safety assessments will receive appropriate instructions concerning identification, escalation and handling of suspected exploitation material.

14.3 RFYNE will maintain appropriate records of safety procedures, risk assessments and incident responses as required by applicable law.

14.4 These procedures will be reviewed periodically and updated to reflect applicable regulatory developments.

15. Contact Information

Questions, concerns or reports relating to child sexual abuse or exploitation material may be directed to:

Platform: HUNTR

Operator: RFYNE PTY LTD

Email: rfyneco@gmail.com

Website: huntr.net.au

Suspected child sexual exploitation material may also be reported directly to the Australian eSafety Commissioner at www.esafety.gov.au/report.
