# HUNTR - Privacy Policy

Effective Date: 27 October 2026

Platform Operator: RFYNE (RFYNE PTY LTD, ACN: 695 701 501)

## 1. Introduction and Scope

1.1 HUNTR ("HUNTR", "we", "us" or "our") is an Australian digital content platform owned and operated by RFYNE Pty Ltd ("RFYNE").

1.2 We recognise the importance of privacy and discretion, particularly given the sensitive nature of the content available through our Platform. We are committed to managing personal information responsibly and in accordance with applicable Australian privacy laws.

1.3 This Privacy Policy explains how we collect, hold, use, disclose and protect personal information in connection with the HUNTR website and associated services.

1.4 This Policy applies to visitors, registered customers, featured Creators and individuals who communicate with us.

1.5 By using HUNTR, you acknowledge that your personal information may be handled as described in this Policy. Where consent is legally required for a particular activity, we will seek that consent separately.

## 2. Information We Collect

### 2.1 Account Information

When customers register for HUNTR, we collect their chosen username, email address and authentication credentials. Customers may use a pseudonym and are not ordinarily required to provide their legal name when registering.

Passwords are managed through the Platform's authentication system and should be stored using appropriate cryptographic protections rather than in readable form.

### 2.2 Purchase Information

When customers purchase digital content, we collect and maintain records of relevant transactions, including purchased Packages, transaction dates, amounts paid, payment status and associated account identifiers.

These records allow HUNTR to process transactions, provide continuing access to purchased content and address customer enquiries.

### 2.3 Technical Information

When users access HUNTR, our systems and hosting providers may process technical information necessary for website operation and security, including IP addresses, device and browser information, access timestamps and relevant system logs.

**2.4 Creator Information**

RFYNE maintains information relating to Creators featured on HUNTR, which may include identity verification records, contact information, content permissions, contractual records and information necessary to administer their participation.

## 3. How We Collect Information

3.1 We collect information directly from customers when they create accounts, make purchases, update their details or contact customer support.

3.2 Certain technical information may be collected automatically through the operation of the Platform and its supporting infrastructure.

3.3 We may also receive limited information from authorised service providers, including payment processors and age-verification services, where necessary to facilitate transactions, verify eligibility or maintain security.

3.4 Information concerning featured Creators may be obtained directly from those Creators or through RFYNE's existing contractual and management arrangements.

## 4. How We Use Personal Information

4.1 We collect and use personal information for legitimate Platform operations and other purposes permitted by applicable law, including:

a) creating and administering customer accounts;
b) processing payments and maintaining transaction records;
c) providing access to purchased digital content;
d) verifying eligibility to access age-restricted material;
e) responding to enquiries, complaints and support requests;
f) maintaining Platform functionality, reliability and security;
g) detecting and preventing fraud, unauthorised access and misuse; and
h) meeting applicable legal and regulatory obligations.

4.2 We will not use personal information for materially unrelated purposes unless authorised or required by law, or unless the customer has provided any consent required for that use.

## 5. Customer Anonymity and Discretion

5.1 HUNTR is designed to allow customers to access and purchase content without publicly identifying themselves.

Customers may register using anonymous usernames or pseudonyms.

5.2 Featured Creators may receive information concerning purchases of their content, including sales activity and relevant transaction details. They are not provided with customers' legal names, email addresses, payment credentials or other direct identifying information merely because a purchase has occurred.

5.3 Information necessary to manage accounts and transactions may remain accessible to authorised RFYNE personnel and relevant service providers.

5.4 HUNTR does not guarantee absolute anonymity. Personal information may be disclosed where the customer authorises disclosure, where necessary to provide a requested service, or where otherwise required or permitted by applicable law.

5.5 We take reasonable steps to limit access to customer information to those who require it for legitimate business or legal purposes.

## 6. Sensitive and Confidential Information

6.1 HUNTR recognises that information relating to the use or purchase of adult content may be particularly private.

Depending on its nature and context, information collected through the Platform may reveal or support inferences about an individual's sexual preferences, practices or other matters protected under privacy law.

6.2 Where information constitutes sensitive information under applicable Australian privacy legislation, we will handle it in accordance with the additional legal requirements applicable to that information.

6.3 We will take reasonable steps to minimise the collection, use and disclosure of information that is unnecessary for operating the Platform.

6.4 We will not sell identifiable customer purchasing histories to advertisers or data brokers.

## 7. Age and Identity Verification

7.1 HUNTR is intended exclusively for adults aged 18 years or older.

7.2 To meet applicable age-restriction requirements, HUNTR uses or intends to use an authorised third-party age-assurance provider YOTI HUB (https://www.yoti.com/).

7.3 The provider may require information necessary to establish a user's age, depending on the verification method offered.

7.4 The information collected by the provider, whether identification documents or biometric information are processed, and what verification results are provided to RFYNE will be explained to users before verification.

7.5 RFYNE will seek to limit the age-verification information it receives and retains to what is reasonably necessary for eligibility, security and compliance purposes.

7.6 Where third-party verification services process personal information, their applicable privacy notices will be made available to users.

**8. Payments and Financial Information**

8.1 HUNTR facilitates one-time purchases of individual digital content Packages.

8.2 Payments will be processed through an authorised third-party payment provider.

8.3 The payment provider may collect and process information required to complete transactions, including payment credentials, billing information and transaction details.

8.4 RFYNE will maintain information reasonably necessary to administer purchases, confirm payment status, address payment disputes and comply with financial and legal obligations.

8.5 The identity of HUNTR's payment provider and its applicable privacy arrangements will be disclosed once the provider has been selected.

**9. Disclosure to Third Parties**

9.1 HUNTR may disclose personal information to authorised third-party service providers where reasonably necessary for Platform operations.

These providers may include:

a) website hosting and server infrastructure providers;
b) database storage and backup providers;
c) payment processing services;
d) age and identity-verification services;
e) website security and authentication providers; and
f) professional advisers or regulatory authorities where disclosure is lawfully required or permitted.

9.2 HUNTR will take reasonable steps to ensure that service providers handling personal information are subject to appropriate confidentiality, privacy and security arrangements.

9.3 We do not disclose identifiable customer purchase information to Creators for their independent marketing purposes merely because those customers have purchased their content.

## 10. Data Security and Protection

10.1 HUNTR is committed to taking reasonable technical and organisational measures to protect personal information against unauthorised access, misuse, interference, loss, modification and disclosure.

10.2 Our security arrangements may include access controls, secure authentication, encryption, system monitoring and security measures implemented by our hosting and service providers, as appropriate to our systems.

10.3 Access to personal information will be restricted according to legitimate operational requirements.

10.4 In the event of a suspected data breach, HUNTR will investigate the incident and take appropriate steps to contain and address identified risks.

10.5 Where legally required, we will notify affected individuals and relevant regulatory authorities in accordance with applicable data breach notification requirements.

10.6 Although we take reasonable steps to protect personal information, no online system can guarantee absolute security.

## 11. Cookies and Tracking Technologies

11.1 HUNTR may use cookies or similar technologies necessary to maintain account sessions, authenticate users, remember essential preferences and support the secure operation of the Platform.

11.2 HUNTR does not currently plan to use advertising tracking, behavioural profiling or non-essential customer analytics technologies.

11.3 If additional analytics or marketing technologies are introduced, this Policy will be updated and any legally required notices or consents will be provided.

11.4 Users may manage certain cookies through their browser settings, although disabling essential cookies may affect Platform functionality.

## 12. Data Retention and Account Deletion

12.1 HUNTR retains personal information only for as long as reasonably necessary for the purposes for which it was collected, or as otherwise required or permitted by law.
12.2 Customers may request account deletion through the account settings available on the Platform.
12.3 Following a deletion request, HUNTR will arrange for the deletion or de-identification of personal information that is no longer required, subject to applicable legal, financial, security and recordkeeping obligations.
12.4 Certain records, including transaction information and records required for legal compliance or dispute resolution, may be retained after account closure where necessary and legally permitted.
12.5 Information stored in backups may remain for a limited period in accordance with applicable backup retention procedures.
12.6 Deletion of a customer account will result in the loss of access to content associated with that account, as further described in HUNTR's Terms of Service.

**13. Access, Correction and Privacy Rights**

13.1 Individuals may request access to personal information held about them, subject to applicable legal exceptions.
13.2 Individuals may also request correction of personal information that is inaccurate, incomplete, out of date, irrelevant or misleading.
13.3 Requests may be submitted through HUNTR's designated privacy contact channel.
13.4 HUNTR may require reasonable verification of the requester's identity before providing access to or modifying personal information.
13.5 Requests will be considered within a reasonable timeframe and in accordance with applicable legal requirements.

**14. International Data Transfers**

14.1 HUNTR uses third-party infrastructure and service providers to support its operations.
14.2 Depending on the providers selected and their infrastructure arrangements, personal information may be stored, processed or disclosed outside Australia.
14.3 Where overseas disclosures occur, HUNTR will comply with applicable Australian privacy law, including requirements relating to overseas recipients.

14.4 Details of the countries in which overseas recipients are likely to be located will be included in this Policy where practicable, once relevant hosting, verification and payment arrangements have been confirmed.

## 15. Policy Updates, Complaints and Contact Details

### 15.1 Policy Updates

RFYNE may update this Privacy Policy to reflect changes in HUNTR's operations, information-handling practices or applicable legal requirements.

The current version will be published on the Platform with its effective date. Material changes will be communicated where appropriate or legally required.

### 15.2 Privacy Enquiries and Complaints

Individuals who have questions or concerns about the handling of their personal information may contact HUNTR using the details below.

HUNTR will consider privacy complaints fairly and respond within a reasonable timeframe.

Where an individual is dissatisfied with the outcome of a complaint, they may be entitled to lodge a complaint with the Office of the Australian Information Commissioner (OAIC).
